#### Installation

]	Before installing the extension, please make sure to <b>Backup your web directory and store database</b>
Ð	You will require to install MageDelight Base Extension first. If it is not installed then please download it from https://www.magedelight.com /pub/extensions/magedelight-base.zip and unzip the package file into the root folder of your Magento 2 installation.
Ð	Root Directory is - "app/code/magedelight/#YourExtensionName#"
<u> </u>	
:	Unzip the extension package file into the root folder of your Magento 2 installation. Connect to SSH console of your server: • Navigate to the root folder of your Magento 2 setup • Run command as per below sequence,
:	Unzip the extension package file into the root folder of your Magento 2 installation. Connect to SSH console of your server: • Navigate to the root folder of your Magento 2 setup • Run command as per below sequence, php bin/magento setup:upgrade
:	Unzip the extension package file into the root folder of your Magento 2 installation. Connect to SSH console of your server: • Navigate to the root folder of your Magento 2 setup • Run command as per below sequence, php bin/magento setup:upgrade php bin/magento setup:di:compile
:	Unzip the extension package file into the root folder of your Magento 2 installation. Connect to SSH console of your server: <ul> <li>Navigate to the root folder of your Magento 2 setup</li> <li>Run command as per below sequence,</li> </ul> <li>php bin/magento setup:upgrade <ul> <li>php bin/magento setup:di:compile</li> <li>php bin/magento setup:static-content:deploy</li> </ul> </li>

If you are using Magento 2.3 or later then you do not need to activate license. Extension will be activated with silent activation mechanism and does not require activation keys to be entered manually.

### Backend Configuration (Admin side)

The out-of-stock notification will display for products whose status has been set to "out of stock".

Menu

MageDelight >> Out of Stock Notifications >> Configuration

General Configuration
