## Installation

---

You will require to install MageDelight Base Extension first. If it is not installed then please download it from <https://www.magedelight.com/pub/extensions/magedelight-base.zip> and unzip the package file into the root folder of your Magento 2 installation.

Before installing the extension, please make sure to **Backup your web directory and store database**

You will require to install MageDelight Base Extension first. If it is not installed then please download it from <https://www.magedelight.com/pub/extensions/magedelight-base.zip> and unzip the package file into the root folder of your Magento 2 installation.

Root Directory is - "**app/code/magedelight/#YourExtensionName#**"

- Unzip the extension package file into the root folder of your Magento 2 installation.
- Connect to SSH console of your server:
  - Navigate to the root folder of your Magento 2 setup
  - Run command as per below sequence,

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:di:compile
```

```
php bin/magento setup:static-content:deploy
```

```
php bin/magento cache:clean
```

- log out from the backend and log in again

If you are using Magento 2.3 or later then you do not need to activate license. Extension will be activated with silent activation mechanism and does not require activation keys to be entered manually.

## License Configuration

MageDelight License activation is not required for extension purchased from Magento Marketplace.

After successful installation of #ExtensionName# extension, you are now required to configure the license key in the admin configuration section. You can set it from:

**Step 1: Go to, Admin Control Panel > Magedelight > #ExtensionName# > Configuration > License Configuration.**

You will find two text boxes asking for Serial Key and Activation Key, which you received on email upon the purchase of extension. See screenshot below:

### License Configuration

**Serial Key**  
[store view]

**Activation Key**  
[store view]

- **Serial Key:** Enter Serial Key
- **Activation Key:** Enter Activation Key

**Step 2: Expand "General Configuration" tab, you will find a list of domains for which license is purchased and configured, now select the domain you are going to use, you can select multiple domains by clicking "Ctrl + Select".**

## General Configuration

Select Website  
[website]

  
  

Please save serial and activation keys to get the available options.

Step 3: Now, select "Yes" from "Enable Module" to enable extension and again click on "Save Config" button on the top right.

## General Settings

Enable Module  
[store view]

Yes

## Backend Configuration (Admin side)

### Google XML Sitemap

#### General

## General

Enable [store view]

[Click here](#) to know more

Directory Path [store view]

Path after Magento Root Directory. Keep it blank if you want it to generate at Magento Root Directory

Frequency [store view]

Time [store view]  :  :

Generate XML Sitemap

Download XML Sitemap

- **Enable:** Select "Yes" to enable Google XML sitemap generation.
- **Directory Path:** Provide a directory path to save XML sitemap.
- **Frequency:** Select frequency to generate XML sitemap. You can select either daily, weekly, or monthly from given options.
- **Time:** Select time to generate XML sitemap automatically.
- **Generate XML Sitemap:** Click to generate XML sitemap manually.
- **Download XML Sitemap:** Click to download XML sitemap manually.

## Category

### Category

Include [store view]

changefreq [store view]

priority [store view]

- **Include:** Select "Yes" to include a category for XML sitemap.
- **changefreq:** Select frequency to refresh category for sitemap. You can select options from below,
  - Always
  - Hourly
  - Daily

- Weekly
  - Monthly
  - Yearly
  - Never
  - System defined
- **priority:** Provide manual priority for the category for the XML sitemap.

## Product

### Product

Include [store view] Yes ▼

changefreq [store view] weekly ▼

priority [store view] 0.8

- **Include:** Select "Yes" to include products for XML sitemap.
- **changefreq:** Select frequency to refresh products for sitemap.
- **priority:** Provide manual priority for the product for XML sitemap.

## CMS

### CMS

Include [store view] Yes ▼

changefreq [store view] monthly ▼
