- [Support](#)
- [Additional Services](#)

Installation

 Before installing the extension, please make sure to **Backup your web directory and store database**

 You will require to install MageDelight Base Extension first. If it is not installed then please download it from <https://www.magedelight.com/pub/extensions/magedelight-base.zip> and unzip the package file into the root folder of your Magento 2 installation.

 Root Directory is - "**app/code/magedelight/#YourExtensionName#**"

- Unzip the extension package file into the root folder of your Magento 2 installation.
- Connect to SSH console of your server:
 - Navigate to the root folder of your Magento 2 setup
 - Run command as per below sequence,

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:di:compile
```

```
php bin/magento setup:static-content:deploy
```

```
php bin/magento cache:clean
```

- log out from the backend and log in again

If you are using Magento 2.3 or later then you do not need to activate license. Extension will be activated with silent activation mechanism and does not require activation keys to be entered manually.

20 ▼ per page < 1 of 2

	ID	Name	Description	Action
<input type="checkbox"/>	1	PHPSESSID	To store the logged in user's username and a 128bit encrypted key.This information is required to allow a user to stay logged in to a web sitewithout needing to submit their username and password for each page visited. Without this cookie, a user is unable to proceed to areas of the web site that require authenticated access.	Edit
<input type="checkbox"/>	2	private_content_version	Appends a random, unique number and time to pages with customer content to prevent them from being cached on the server.	Edit
<input type="checkbox"/>	3	persistent_shopping_cart	Stores the key (ID) of persistent cart to make it possible to restore the cart for an anonymous shopper.	Edit
<input type="checkbox"/>	4	persistent_shopping_cart	A security measure that appends a random string to all form submissions to protect the data from Cross-Site Request Forgery (CSRF).	Edit
<input type="checkbox"/>	5	persistent_shopping_cart	Tracks the specific store view / locale selected by the shopper.	Edit
<input type="checkbox"/>	6	login_redirect	Preserves the destination page the customer was navigating to before being directed to log in.	Edit

- You can add all the cookies and assign to the cookie group.
