## Installation

---

You will require to install MageDelight Base Extension first. If it is not installed then please download it from <https://www.magedelight.com/extensions/magedelight-base-extension.zip> and unzip the package file into the root folder of your Magento 2 installation OR (app/code/Magedelight/).

- Connect to SSH console of your server:
- Navigate to the root folder of your Magento 2 setup
- Run command as per below sequence,

```
php -f bin/magento setup:upgrade  
php -f bin/magento module:enable Magedelight_Base  
php -f bin/magento setup:static-content:deploy
```

- Unzip the extension package file into the root folder of your Magento 2 installation.
- Connect to SSH console of your server:
  - Navigatetorootfolderof your Magento 2 setup
  - Run command as per below sequence,

```
php -f bin/magento setup:upgrade
```

```
php -f bin/magento module:enable Magedelight_OrderbySKU
```

```
php -f bin/magento setup:static-content:deploy
```

- Flush store cache
- log out from the backend and log in again

## Backend Configuration (Admin side)

---

## General

**Enable**  
[store view]

Yes

**Company Name**  
[store view]

**Company Description**  
[store view]

**Additional Information Block**  
[store view]

**LLMs.txt File Path**  
[store view]

llms

Relative to pub/ directory

**Access Control**  
[store view]

- Base Rate: 60 requests per hour per IP  
- Burst Rate: Max 6 requests per minute  
- Authentication: Not required for public product pages

- Commercial Use: Not permitted without written approval  
- Attribution: Required, "Source: Your Store (yourstoreurl.com)"

Terms shown in the file

Field	Description
<b>Enable</b>	Toggle to enable or disable the feature. Select "Yes" to activate the settings.
<b>Company Name</b>	Input field to enter the official name of the company.
<b>Company Description</b>	Text area to provide a brief overview or description of the company.

<b>Additional Information Block</b>	An optional field to display any extra message or note. Example: "This file is generated to assist LLMs..."
<b>LLMs.txt File Path</b>	Path relative to the <code>pub/</code> directory where the <code>llms.txt</code> file is stored. This file helps guide LLMs in using your content. Default: <code>llms</code> .
<b>Access Control</b>	Read-only block that outlines usage terms for the <code>LLMs.txt</code> file. It includes: rate limits, caching, commercial use policy, attribution requirement, etc.

## Content Inclusion

### ⊖ CMS Pages

**Enable CMS Pages**  
[store view]

Yes

**Additional CMS Content Fields**  
[store view]

Meta Title  
Meta Description  
Meta Keywords  
Content

Title and URL are always included by default

**Exclude CMS Pages**  
[store view]

404 Not Found  
Home Page  
Enable Cookies  
Privacy Policy  
About us  
Customer Service

**CMS Sort Order**  
[store view]

3

**Restricted Pages**  
[store view]

One per line (e.g., /customer/\*)

**Additional Pages**  
[store view]

Markdown-style format: - [Title](URL): Content

Field	Description
Enable CMS Pages	Choose "Yes" to allow CMS pages to be included for LLM access.
Additional CMS Content Fields	Select extra fields (like Meta Title or Content) you want to include. Title and URL are added by default.
Exclude CMS Pages	Choose pages you <b>don't</b> want to share, such as 404 or policy pages.
CMS Sort Order	Set the order in which CMS pages appear in the output (lower number = higher priority).
Restricted Pages	Enter URLs of pages that should be excluded based on paths (e.g., /customer/*). One per line.
Additional Pages	Manually add any extra pages not part of CMS using markdown format: - [Title](URL): Content.

## ⏪ Product Pages

Enable Product Pages  
[store view]

Additional Product Content  
Fields  
[store view]

Page Name

Short Description

SKU

Meta Title

Name, URL and Meta Description are always included by default

Exclude Product IDs  
[store view]

Comma-separated, e.g., 12,48,63

Product Sort Order  
[store view]

Field	Description
Enable Product Pages	Select "Yes" to allow product pages to be included for LLM access.
Additional Product Content Fields	Choose which extra fields to include (e.g., SKU, Meta Title). Name, URL, and Meta Description are always included.
Exclude Product IDs	Enter product IDs that should not be included. Use commas to separate (e.g., 12, 48, 63).
Product Sort Order	Set the display order of product data in the output. Lower numbers appear first.

## Category Pages

**Enable Category Pages**  
[store view]

Yes

**Additional Category  
Content Fields**  
[store view]

Description

Meta Title

Name, URL, and Meta Description are  
always included by default

**Exclude Category IDs**  
[store view]

Comma-separated, e.g., 4,9,17

**Category Sort Order**  
[store view]

2

Field	Description
<b>Enable Category Pages</b>	Select "Yes" to include category pages for LLM access.
<b>Additional Category Content Fields</b>	Choose extra details to include, like "Description" or "Meta Title". Name, URL, and Meta Description are included by default.
<b>Exclude Category IDs</b>	Enter the IDs of category pages you don't want to share. Use commas to separate them (e.g., 4, 9, 17).
<b>Category Sort Order</b>	Set the order for how category data should appear. Lower numbers come first.

## File Management

**LLM File Structure Style** [store view]  ▼

**Generation Frequency** [store view]  ▼

**Scheduled Start Time** [store view]  ▼ :  ▼ :  ▼  
HH:MM:SS

**Last Generated At** [store view] 2025-08-04 07:25:10

**Download LLMs.txt File** [store view]

**Generate Now** [store view]

Field	Description
<b>LLM File Structure Style</b>	Choose how the file content is formatted: <ul style="list-style-type: none"><li>• <b>Markdown Style</b> – Easy-to-read text format</li><li>• <b>Key Value Format</b> – Machine-readable format like <code>key: value</code> pairs.</li></ul>
<b>Generation Frequency</b>	Select how often the file should be generated: <ul style="list-style-type: none"><li>• <b>Daily, Weekly, Monthly</b></li><li>• <b>Custom Cron</b> – Set a specific time using the fields below</li></ul>
<b>Scheduled Start Time</b>	If using “Custom Cron”, set the exact time for file generation (format: HH:MM: SS)
<b>Last Generated At</b>	Shows the date and time the file was last automatically generated
<b>Download LLMs.txt File</b>	Click to download the most recently generated file manually
<b>Generate Now</b>	Instantly create the file with current settings

## Frontend Functionality

- **Key-Value Format**

```

# Access Control
- Base Rate: 60 requests per hour per IP
- Burst Rate: Max 6 requests per minute
- Authentication: Not required for public product pages
- Retention: Cache for up to 24 hours
- Commercial Use: Not permitted without written approval
- Attribution: Required, "Source: Your Store (yourstoreurl.com)"

# Products
Name: Joust Duffle Bag
URL: https://llmfilegenerator.m2.demo.magedelight.com/default/joust-duffle-bag.html
SKU: 24-MB01

Name: Strive Shoulder Pack
URL: https://llmfilegenerator.m2.demo.magedelight.com/default/strive-shoulder-pack.html
SKU: 24-MB04

Name: Crown Summit Backpack
URL: https://llmfilegenerator.m2.demo.magedelight.com/default/crown-summit-backpack.html
SKU: 24-MB03

Name: Wayfarer Messenger Bag
URL: https://llmfilegenerator.m2.demo.magedelight.com/default/wayfarer-messenger-bag.html
SKU: 24-MB05

Name: Rival Field Messenger
URL: https://llmfilegenerator.m2.demo.magedelight.com/default/rival-field-messenger.html
SKU: 24-MB06

```

- This file uses a clean, structured format where each piece of product information is labelled as a key (like Name, URL, SKU) followed by its value. It is easy for both humans and machines to read and parse, making it ideal for technical integration or automation.

## • Markdown Style

```

## Access Control

- Base Rate: 60 requests per hour per IP
- Burst Rate: Max 6 requests per minute
- Authentication: Not required for public product pages
- Retention: Cache for up to 24 hours
- Commercial Use: Not permitted without written approval
- Attribution: Required, "Source: Your Store (yourstoreurl.com)"

## Products

-[Joust Duffle Bag](https://llmfilegenerator.m2.demo.magedelight.com/default/joust-duffle-bag.html)
SKU: 24-MB01

-[Strive Shoulder Pack](https://llmfilegenerator.m2.demo.magedelight.com/default/strive-shoulder-pack.html)
SKU: 24-MB04

-[Crown Summit Backpack](https://llmfilegenerator.m2.demo.magedelight.com/default/crown-summit-backpack.html)
SKU: 24-MB03

-[Wayfarer Messenger Bag](https://llmfilegenerator.m2.demo.magedelight.com/default/wayfarer-messenger-bag.html)
SKU: 24-MB05

-[Rival Field Messenger](https://llmfilegenerator.m2.demo.magedelight.com/default/rival-field-messenger.html)
SKU: 24-MB06

```

- This format uses readable markdown syntax with headers (##) and links. Each product is shown with a clickable title, its URL, and SKU. It's ideal for human-friendly presentation and easy sharing or documentation.
