Installation

i You will require to install MageDelight Base Extension first. If it is not installed then please download it from <https://www.magedelight.com/pub/extensions/magedelight-base.zip> and unzip the package file into the root folder of your Magento 2 installation.

! Before installing the extension, please make sure to **Backup your web directory and store database**

i You will require to install MageDelight Base Extension first. If it is not installed then please download it from <https://www.magedelight.com/pub/extensions/magedelight-base.zip> and unzip the package file into the root folder of your Magento 2 installation.

i Root Directory is - "**app/code/magedelight/#YourExtensionName#**"

- Unzip the extension package file into the root folder of your Magento 2 installation.
- Connect to SSH console of your server:
 - Navigate to the root folder of your Magento 2 setup
 - Run command as per below sequence,

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:di:compile
```

```
php bin/magento setup:static-content:deploy
```

```
php bin/magento cache:clean
```

- log out from the backend and log in again

If you are using Magento 2.3 or later then you do not need to activate license. Extension will be activated with silent activation mechanism and does not require activation keys to be entered manually.

CRON Setup

- If you are don't have any Magento CRON tab then please visit this link <https://experienceleague.adobe.com/docs/commerce-operations/configuration-guide/cli/configure-cron-jobs.html#create-the-commerce-crontab>
- Run "crontab - l" this will list all the CRONs
- Run "crontab -e" and edit the file
- After this you need to use this command for setup abandoned cart CRON
 - `***** /usr/bin/php7.3 /var/www/html/demo/bin/magento cron:run --group md_cronabandoned 2>&1 | grep -v "Ran jobs by schedule" >> /var/www/html/demo/var/log/magento.cron.log`
 - In this you need to change PHP version as per your system's version
 - Change path of "/var/www/html/demo" as per your Magento root directory
- Run "crontab - l" check your CRON is added or not.
- Run "php bin/magento cron:run --group md_cronabandoned"
