## Installation

---

 Before installing the extension, please make sure to **Backup your web directory and store database**

 You will require to install MageDelight Base Extension first. If it is not installed then please download it from <https://www.magedelight.com/pub/extensions/magedelight-base.zip> and unzip the package file into the root folder of your Magento 2 installation.

 Root Directory is - "**app/code/magedelight/#YourExtensionName#**"

- Unzip the extension package file into the root folder of your Magento 2 installation.
- Connect to SSH console of your server:
  - Navigate to the root folder of your Magento 2 setup
  - Run command as per below sequence,

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:di:compile
```

```
php bin/magento setup:static-content:deploy
```

```
php bin/magento cache:clean
```

- log out from the backend and log in again

If you are using Magento 2.3 or later then you do not need to activate license. Extension will be activated with silent activation mechanism and does not require activation keys to be entered manually.

## Backend Configuration (Admin side)

This extension will provide an option to manage schedule delivery date and time slots, for product delivery. Customer can choose particular date and time slot to deliver products, put message to merchant for special condition.

<b>Enable Scheduleshipping</b> <small>[store view]</small>	Yes

Delivery Comment

Please change delivery date of my order

**SAVE**

Customers can change the delivery date after the order has been placed. Go to customer **My Account > My orders > View Order**.

At the end, find the option to edit the delivery date.

Admin will be notified for the change in delivery date.

As per standard Magento functionality once the order generated, order amount / delivery charges cannot be changed/modified from admin panel.
