Installation

Product PDF Extension has dependency on **tcpdf library** so first you need to run below mentioned command

Run command **composer require tecnickcom/tcpdf** in Magento root

tecnickcom folder should have proper permission to current user

Please run below command to give proper permission to current user

```
sudo chown -R USER:USER PROJECTPATH/vendor/tecnickcom/
```

here USER -> Current user

PROJECTPATH -> Magento project installation path.

Before installing the extension, please make sure to **Backup your web directory and store database**

You will require to install MageDelight Base Extension first. If it is not installed then please download it from <https://www.magedelight.com/pub/extensions/magedelight-base.zip> and unzip the package file into the root folder of your Magento 2 installation.

Root Directory is - "**app/code/magedelight/#YourExtensionName#**"

- Unzip the extension package file into the root folder of your Magento 2 installation.
- Connect to SSH console of your server:
 - Navigate to the root folder of your Magento 2 setup
 - Run command as per below sequence,

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:di:compile
```

```
php bin/magento setup:static-content:deploy
```

```
php bin/magento cache:clean
```

- log out from the backend and log in again

If you are using Magento 2.3 or later then you do not need to activate license. Extension will be activated with silent activation mechanism and does not require activation keys to be entered manually.

Backend Configuration (Admin side)

General

Enable On Frontend [store view] Yes

This option will enable catalogprint on every category pages of frontend.

General

- **Enable On Frontend:** Show/Hide link on frontend to generate PDF catalog. Default value is yes.
- **Enable On Backend:** Show/Hide link on Backend to generate PDF catalog. Default value is yes.
- **Cover Page Background:** Upload background image for PDF cover page.
- **Cover Page Font Color:** Change font color on cover page.
- **Include Product Attributes:** Product attribute selection to be printed with PDF Catalog Print Advance.
 - Enable attribute for PDF Catalog Print Advance,

Store >> Attributes >> Product >> Select attribute (Set "Yes" to allow attribute for PDF catalog print Advance)

ATTRIBUTE INFORMATION

- Properties
- Manage Labels
- Storefront Properties

Attribute Properties

Default Label * Gender

Catalog Input Type for Store Owner Multiple Select

Values Required No

Use in Catalog Print Yes

Can be used in catalog print attribute configuration?

- **Display Date:** Show/Hide option to show date under footer.
- **Display Copyright :** Show/Hide to display copyright.
- **Allowed Customer Groups:** Only allowed customer on front-end would be able to see the PDF Catalog Print Advance links.
- **Products Display:** Options are 1. Only child category product & 2. Parent and child category product. Here admin can define to show product only for child category or for both parent and child category. To avoid data redundancy. Since with catalog products are assigned to parent as well as child category. So same products would be repeated to both category if set to display for parent and child category.
- **Sort By:** Product short by Position/ Name/ SKU/ Price.
- **Order By:** Option to set product order by Ascending/Descending.

- Document index by Product Name in alphabetical sorted ascending order.

Admin can also generate PDF catalog file for selected categories. Make sure that categories to be printed have been assigned the products you want to print. Admin can choose categories to be printed with catalog PDF from category tree. You can access this from **Catalog > Categories > PDF Catalog Print**, where you can get the category tries to select categories in left section. In the right-hand section, you will have the options to select for PDF category. See above screenshot.

If PDF Catalog Print configuration option "Enable for frontend" is set to yes, the 'print catalog' link will be available on each category product list page as shown in above screenshot. "Print Catalog" link will open a pop-up box with options available to the PDF Catalog Print Extension as below,

Print PDF Catalog Layout View Grid Layout List Layout

Print PDF Catalog Options

- > Product Categories/Sub Categories Headings
- > Title/cover page
- > Table of Contents with page numbers
- > Document index by Product SKU in ascending order.
- > Document index by Product Name in alphabetical sorted ascending order.

PRINT CATALOG

This would contain various options for PDF Catalog Print Advance such as PDF layout (grid view or list view,) Include categories headings in the top, include cover page, table of contents with page number and document index by product SKU and Name. You can view these options in the screenshot above. After choosing the require option. Click on the Print Catalog button. You will be redirected to a new tab where you will see a progress bar.

This bar shows that the PDF catalog print is under process. Once the process is completed, you will see a link with title “**Click Here to Download Catalog**”. This link will allow you to download catalog PDF file containing the selected category.
