## Installation

To use this extension, you will require to install MageDelight Base Extension first. If it is not installed then please download it from <https://www.magedelight.com/pub/extensions/magedelight-base.zip> and unzip the package file into the app/code/Magedelight folder of your Magento 2 installation.

Before installing the extension, please make sure to **Backup your web directory and store database**

You will require to install MageDelight Base Extension first. If it is not installed then please download it from <https://www.magedelight.com/pub/extensions/magedelight-base.zip> and unzip the package file into the root folder of your Magento 2 installation.

Root Directory is - "**app/code/magedelight/#YourExtensionName#**"

- Unzip the extension package file into the root folder of your Magento 2 installation.
- Connect to SSH console of your server:
  - Navigate to the root folder of your Magento 2 setup
  - Run command as per below sequence,

```
php bin/magento setup:upgrade
```

```
php bin/magento setup:di:compile
```

```
php bin/magento setup:static-content:deploy
```

```
php bin/magento cache:clean
```

- log out from the backend and log in again

If you are using Magento 2.3 or later then you do not need to activate license. Extension will be activated with silent activation mechanism and does not require activation keys to be entered manually.

## Backend Configuration (Admin side)

### General Configuration

**Enable Facebook Native**  
[store view]

Yes

**Enable Cron Schedule**  
[store view]

Yes

**CRON JOB Frequency**  
[website]

Daily

Define CRON Frequency to generate feed file for facebook.

**CRON JOB Start Time**  
[website]

00

:

00

:

00

Define CRON Start Time. It should be earlier from facebook schedule time for up to date feed.

- **Enable Facebook Native:** Select "Yes" to enable Facebook Shop Integration for your Magento store.
- **Enable CRON Schedule:** Select "Yes" to enable CRON for your store to keep Facebook feeds up to date automatically.
- **CRON JOB Frequency:** Select frequency to run CRON job. You can select daily, weekly or monthly from .
- **CRON JOB Start Time:** Select start time to run CRON job. This should be earlier than Facebook scheduled time to keep your catalog up to date on store front as well as feeds.

When we will CRON, it will generate with product catalog details to be sent on Facebook to update feeds. Automatic CRON helps store owner to keep catalog sync with store and Facebook feed with up to date details. When you change you can set to keep price however reflection on Facebook.

## Backend Functionality

### Facebook Attributes Mapping

## Facebook Attributes Mapping

  demo ▾

Save

Import Csv

 Please Map required field one of (gtin, mpn, brand). Otherwise facebook will reject request.

Facebook Attribute	Magento Attribute
ID ▾	SKU ▾
Availability ▾	Dynamic ▾
Description ▾	Description ▾
Price ▾	Price ▾
Brand ▾	Brand ▾ <span>Delete</span>
<span>Add Attribute Mapping</span>	

- **Facebook Attribute:** Select Facebook attribute to map value of store product. i.e. Facebook's Price attribute should match paroduct's Price attribute.
- **Magento Attribute:** Select Store attribute to map value of Facebook product. i.e. Store's Price attribute should match Facebook's Price attribute.

## Product Feed

### Facebook Shop

Is Allow for Facebook Feed  Yes  
[store view]

- **Allow for Facebook Feed:** Select "Yes" to show this product in Facebook feed. You will find this option in product catalog of Magento.

## Use cases

Reach customers on Facebook and Instagram with your catalogue, by running ads and using free shopping features.

### Ways to use your catalogue

You need to finish setting up your catalogue to use these features.

#### Dynamic ads

Reach people with personalised ads that are automatically created to include the products they've shown an interest in or are most likely to buy.

[Learn more](#)

#### Ads to drive traffic

Get more people to view products on your website or mobile app by creating an ad campaign with a traffic objective.

[Report a Problem](#)

- Click on "Add product Data Source" –
- Go to MageDelight > Facebook Shop > Product Feed Action

Facebook Catalogs interface showing the 'Need to set up a data feed?' screen. The left sidebar includes 'Current catalogue', 'Manage' (Use cases, Diagnostics, Products, Product sets), and 'Configure' (Product data sources, Event data sources, Settings, Collapse). The main content area has a 'Need to set up a data feed?' section with a note about using the Facebook Feed plugin on Shopify, WooCommerce, BigCommerce, or Magento. Below this is a 'How do you want to upload your data feed?' section with two options: 'Upload once' and 'Set a schedule' (highlighted with a red box). The 'Set a schedule' option is recommended for regular inventory changes. Below this is the 'Enter data feed name' section with a text input field containing 'New data feed for Products for Demo Shop (26485435112949) - 7/25/2019'. A red arrow points from the 'Product data sources' menu item to this field. The 'Select default currency' section shows a dropdown menu set to 'USD - US Dollar'.

- Click on Facebook Feed Url: Paste this url into facebook Add a Data Feed URL.

Facebook Catalogs interface showing the 'Add a data feed URL' screen. The left sidebar is the same as the previous screenshot. The main content area has an 'Add a data feed URL' section with instructions on URL types. Below this is a 'Data feed URL' text input field. A red arrow points to this field. Below the URL field is the 'Add your data feed URL login details (optional)' section with 'Username' and 'Password' fields. A red arrow points to this section. Below this is the 'Schedule your automatic uploads' section with radio buttons for 'Hourly', 'Daily', and 'Weekly'. The 'Hourly' option is selected, and a red arrow points to it. Below this is the 'Enter data feed name' section with a text input field containing 'New data feed for Products for Demo Shop (26485435112949) - 7/25/2019'. A red note on the right side of the screen says 'copy url from: Magedelight > Facebook Shop > Product Feed Action'.

- Now go to your Facebook page Shop tab
- Click on one of the products. You will most likely see the message "Your product is being processed", as said it means that Facebook is still processing your product. On a first upload it usually takes between 10 minutes or an hour.
